

Student Loan Entrance Counseling

Before West Virginia Junior College can disburse your Federal Stafford Loan (Subsidized or Unsubsidized or both), regulations require that you complete this entrance counseling session.

ABOUT YOUR LOANS

Federal Stafford Loans are awarded to students attending school at least half-time. At least half-time is defined at West Virginia Junior College as being enrolled in at least 6 credit hours for each payment period in which a disbursement of your loan is scheduled. Failure to maintain half-time enrollment status will result in your six month grace period beginning and eventually your loan payment coming due.

You may receive a **Subsidized Stafford** Loan, an **Unsubsidized Stafford** Loan or both.

Subsidized Loans are based on your Financial Need as determined by the information you provided on your FAFSA. Unsubsidized Loans are not based on Financial Need

The amount you can borrow in Stafford loans depends upon a few different things:

- Your Academic Level
- Your Dependency Status
- The length of your academic program
- And the receipt of other aid types

ABOUT YOUR LOANS

The Cost of Attendance (COA) established for your program minus the Expected Family Contribution (EFC) as determined by the information you supplied on your Free Application for Federal Student Aid equals the amount of need you have for certain other financial aid programs, such as grants, scholarships, work study, and subsidized Stafford loans. The amount you borrow from loans could effect the amounts of these other financial aid programs.

By maximizing your grants, scholarships, and work study funding, you will be minimizing your future loan repayment obligations.

INTEREST RATES, Cont.

The interest on your Subsidized Stafford Loan is paid by the federal government while you are enrolled in school at least half-time, and during grace and deferment periods. However, you are responsible for paying the interest that accrues during repayment and during periods of forbearance. If interest payments are not made during periods of forbearance, any unpaid interest will be capitalized and increase the principal balance of your loan.

If you receive an unsubsidized Stafford loan, you are responsible for paying the interest from the date the loan is disbursed. You have the option to pay the interest while you are in school. If you do not pay the interest during your in-school period, during the grace period, or during periods of deferment or forbearance, the unpaid interest will be capitalized and increase the principal balance of your loans.

Some lenders charge a Loan Fee, or borrower origination fee. This fee is proportionately subtracted from each disbursement. The Guarantee Agency may also charge a guarantee fee. However, you will be responsible for repaying the total amount borrowed before fees are subtracted.

Your actual interest rate and loan fee (if any) will be included in a disclosure statement sent to you from your lender or servicer.

Promissory Note

A promissory note is a legal binding contract between the borrower of a Stafford Loan and the Lender. It contains the terms and the conditions of the loan and explains how and when it should be repaid. Before you receive your loan funds, you must sign a Master Promissory Note.

When you sign the Master Promissory Note, you are confirming that your school may make multiple loans for you for the duration of your education without having you sign another promissory note. You are also agreeing to repay your lender, all loans made to you under the terms of the note.

West Virginia Junior College has a confirmation process to help ensure your control over borrowing multiple loans under one Master Promissory Note so you will always know the loan amounts you are borrowing for each academic year.

It is your right to Know:

- Your Loan Principal
- When your first payment is due
- Amount of payments
- Cancellation, loan forgiveness, deferment and forbearance options
- Your consolidation options

You also have the right to:

- A 6 month grace period
